

**Title: Officer, U.S. Oceans, Caribbean (Marine Science/Research/Analysis)**

- Organization: The Pew Charitable Trusts
- Location: Puerto Rico
- Description: 8+ years of marine science research experience. This role will conduct research and analysis of fishery management plans and scientific papers; develop and maintain a broad knowledge base of regional and national fishery issues, including the latest science and policy developments. This role will also undertake in-person meetings with decision makers, scientists, and stakeholders; and provide recommendations to promote Pew's policy objectives in the U.S. Caribbean region, with a focus on influencing decisions by the Caribbean Fishery Management Council (CFMC). Must have a strong network of relevant contacts in Puerto Rico and the U.S. Virgin Islands. A Bachelor's degree in a fisheries-related field is required. And advanced degree in marine conservation issues is preferred.
